### SYNOD MEETS HERE.

Session Will Open at Ninth Street Presbyterian Church.

The Synod of Kentucky, comprising the presbyteries of Louisville, Ebenezer, Paducah, Transylvania and Muhlenburg, meets in the Ninth Street Presbyterian Church in this city Oct. 15, at 7:30 p.m., and will open its session with a sermon by the retiring moderator.

The Synod has upon its roll 19 ministers, 195 churches and about 30,000 communicants. It contributed during the past year, besides pastors' salaries, current expenses, etc., nearly \$33,000 for benevolent purposes. Of this amount \$12,000 went to home missions and about \$10,000 to foreign missions.

### LARGE TUMOR REMOVED.

Wife of Judge Brown Recovering From Surgical Operation.

The wife of Judge M. D. Brown on Tuesday had a very dangerous surgical operation performed at St Joseph Infirmary, Louisville, by Dr. Vance, in which a large tumor was successfully removed. She was in the operating room one hour and ten minutes and soon rallied from the anaesthetics used. Up to the latest accounts she was resting well, with every prospect of a speedy recovery. Her many friends here and elsewhere will be glad to learn that the chances of her speedy recovery are good.

Phelps-Cowherd.

Mrs. Mandy Cowherd, of Hopkinsville, and A. V. Phelps, of Clarksville, were married at the Ministers' home Wednesday morning by Rev. Cherry. The bride had one arm, while the groom was minus an eye.—Todd County Times.

### MURDER CHARGE.

Alleged Slayer of Charles Bellamy Arrested Near Crofton.

Henry Blair, col., the alleged slayer of Charles Bellamy, also colored, who was killed near Clarksville last July, was arrested near Crofton last Thursday afternoon by Deputy Sheriff C. J. Barnes. Blair was working in a tobacco field and had a pistol strapped about his waist when the Officer came upon him.

He offered no resistance, however and agreed to return to Tennessee without a requisition. Mr. Barnes took his prisoner to Clarksville Thursday night and delivered him to the authorities.

The murder of Bellamy occurred in District No. 9, near Mr. G. B. Lyle's farm, in an altercation over a pistol.

Bair was apprehended then, but escaped from the officers and had since been at large.

### ACCIDENTAL SHOT.

Shattered Bones of Leg Necessitating Surgical Operation.

About a week ago Mike Dattilo, formerly of this city, accidentally shot himself in the leg with a pistol at Madisonville. He was in the act of taking the weapon from a dresser when it was discharged. The ball passed through his right leg below the knee, shattering the bone. The wound refused to yield to treatment and on last Thursday a surgical operation was performed. All of the injured bone was taken out and the patient is now doing well.

# PRESIDENT WOUNDED!

## While Holding Public Reception in Buffalo.

### Assassin An Anarchist From Mark Hanna's Town Named Leon Czolgosz.

One Bullet Penetrates the Stomach, Another Glances Off From the Breast-bone.

LATEST REPORTS BY WIRE.

An anarchist named Leon Czolgosz attempted the life of President McKinley in the Temple of Music at the Buffalo Exposition Friday. The President was holding a reception and hundreds were coming forward to shake his hand. The assassin had his right hand swathed in a handkerchief or bandage in which he concealed a revolver. As the President extended his hand to take the man's left hand, the anarchist fired two shots.

One of the shots struck the right breast bone and inflicted only a flesh wound. The other penetrated both walls of the stomach, but above the intestines, and probably lodged in the muscles of the back, as it has not been found, though the wound was explored.

The assassin says he is a disciple of Emma Goldman. He was overpowered at once, and, after being roughly handled, was taken in custody by the police and removed later to police headquarters in Buffalo, where later in the day excited crowds surrounded the jail crying "lynch him."

A German-Pole.

Czolgosz is a German-Pole, and says his home is in the vicinity of Cleveland, O. He is twenty-eight years old and unmarried, and has seven brothers and two sisters living there. He worked for a time in the wire works at Newark, O.

President McKinley, when shot dropped the hand of the assassin and staggered back a pace toward Secretary Cortelyou and President Milburn, who had been standing at his side. They caught him as he was failing and drew him tenderly toward a chair.

Czolgosz's every act had been watched by the secret service officers, but they were not quick enough to stop him. As the second shot was fired, though, the meaning of what was happening dawned upon half a hundred of those closest to the place occupied by the President, and there was a mad rush to seize the murderer.

He was finally placed in a carriage and hurried off to jail.

The wounded President was taken to the home of Jno. G. Milburn, President of the Buffalo Exposition.

Mrs. McKinley had been with the President in the forenoon but did not go to the afternoon reception at 4 o'clock. She was asleep at the Milburn home and was not aroused. She awoke at 5:20 and the news was broken to her.

The Doctors Attending.

Dr. P. M. Rixey, the President's physician, was with him and at once took charge of the case, the wounded man being taken to Mr. Milburn's. Other Doctors called in were M. B. Mann, Roswell Parke, H. Mynter and Eugene Wasbin, all

of Buffalo.

The surgeons lost no time in opening the abdomen and locating the wound. The bullet that penetrated passed through the stomach and the holes in front and rear were sewed up with silk thread.

An Eye Witness' Story.

A newspaper reporter who stood just behind the President when the shooting occurred gave one of the

surgeons the news kept from his wife and a moment later, when Secretary Cortelyou asked him if he felt much pain, he said: "This wound hurts very much." He seemed to be fairly easy as he rested in the chair and some of the fading color came back to his face.

Paled at the Sight of Blood.

"He reached his right hand inside of his shirt, and when he withdrew it his fingers were tipped with blood. He paled again at the sight of the blood, and I think he fainted. Senor Azpirio, the Mexican Minister, broke through the crowd and, rushing up to the President, cried: 'My God, Mr. President, are you shot?' The minister

partly conscious."

### SUNDAY'S REPORT.

No Unfavorable Symptoms Developed as Feared.

Buffalo, Sept. 9.—None of the unfavorable symptoms so much dreaded has yet appeared in the President's case. His condition yesterday gave the greatest encouragement, the temperature being lower, pulse decreased and respiration easier. But the physicians do not consider that the critical stage will have been passed through until after another forty-eight hours. The patient's mind yesterday was clear of the effects of the anesthetic, and he enjoyed four hours of natural sleep. Nourishment was also given him hypodermically for the first time since he was shot. The X-rays will not be used for the present to locate the bullet unless signs of inflammation appear. Dr. McBurney, the celebrated New York surgeon, examined the patient yesterday and said there was not a single unfavorable symptom. He also said the prognosis was encouraging for the President after the shooting, all probability saved his life.

### YESTERDAY'S BULLETINS.

A Decided Improvement the First Report Received.

The bulletins received yesterday were all of an encouraging character and the conviction is growing stronger that the President will recover. The bulletins are here given:

8:00 a. m.—The President passed a quiet night. No cause for alarm.

9:00 a. m.—The President's condition is sharply improved this morning.

10:30 a. m.—Dr. Charles McBurney, (the New York surgeon called in Sunday) says if the President holds his own 24 hours longer he will be out of danger.

3 p. m.—The President's condition is still very encouraging.

### STEPPED ON NAIL.

And Foot Was Punctured an Inch Deep.

Mr. John Morris, who lives near the city, stepped on a nail a few days ago and his foot was punctured an inch deep. He suffered greatly from the injury and lockjaw was feared, but the wound is now healing nicely and he is able to be out.

## The Introduction of New Blood.

There is one point in poultry breeding in which the average farmer makes a mistake, and that is in the selection of new blood for his yards: Too much inbreeding is not conducive to the best results, a fact that is quite generally recognized, and accordingly new blood is sought every year or two.

The usual way new blood is selected by the farmer is by sending away for a cockerel. Now this proceeding may result in satisfactory results, especially if the purchaser does not care much about breeding his birds up to the qualifications demanded by the Standard. Still there is a certain risk to run when one decides to mate his females with a cockerel from a breeder who may or may not be breeding with the same object in view as the man who buys the bird.

A gentleman who visited my yards a short time since, asked me as to my methods of introducing new blood, and when informed he said: "There is just where I made my great mistake when I was breeding poultry, and I never knew it before." He had formerly been engaged in a small way in breeding Golden Wyandottes, and when he found himself unable to produce fowls up to the standard requirements as regards color, he sold out and quit in disgust. Nearly every year he would send to some other breeder and get a cockerel to mate with the best of his females, but no matter how closely he culled his flock of hens and pullets, he failed to get among his year's product more than a very low percentage of correctly marked chickens.

The best method of introducing new blood is to do so through the female line. If one is particular about keeping up to the standard qualifications it will pay to go to the nearest good poultry show and personally select such a hen or pullet as best meets his views as to what a first-class one should be. If this course is impracticable, the next best way is to send to a reputable breeder describing a female such as is desired, telling him the amount of money that can be spared for a purchase, and trusting in the seller's judgment as to filling the order.

This female when purchased should be mated with the best male bird in the owner's flock, and from the chicks hatched from the eggs a male bird should be selected through which new blood may be introduced to the rest of the yards. By this method there is no chance of introducing an undesirable trait or type into one's whole flock as would be the case if a male of new blood was used; for if the chicks from the hen prove unsatisfactory they can be disposed of, the original strain of blood still remaining as it was before the experiment.

This method of introducing new blood permits the breeder to establish his own type and strain of the breed or variety he may be breeding, and keep it at the same time introducing enough new blood to keep his fowls vigorous and healthy.

In case one is making a special effort to develop a superior laying strain—and this is something that every farmer should endeavor to do—secure new blood only from a breeder who can give satisfactory proof of the laying qualities of his strain. There are those who assert that show qualities and superior egg production cannot be combined, but there is no basis for such an assertion. It is true that some breeders of fancy fowls pay no attention to the utility qualities, but they are the ones to fight

## IT MAKES WOMEN HAPPY.

"I have been a sufferer for many years from nervousness with all its symptoms and complications," writes Mrs. O. N. Fisher of 1601 Lexington Ave., New York City. "Prescription after prescription, and purchasing medicine, my husband at last induced me to try Dr. E. W. Hall's Patent Prescription. After taking one bottle and following your advice I was so encouraged that I took five more bottles. I am now improving faster than at first. I am not nervous any more. I have a golden color in my face; have also gained ten pounds in weight and am now a woman full of energy. I thank you, women, for your love, and your advice and your 'Favorite Prescription' is the cause of it."

shy of when looking for new blood. It is not a difficult matter to find breeders who value utility qualities and who develop them in their show specimens, and these are the ones to whom the farm breeder will do well to go for foundation blood or for new blood to introduce in a strain already established. Henry L. Allen, in National Stockman and Farmer.

Dr. E. W. HALL,  
St. Louis, Mo.

Dear Sirs—I suffered ten years with severe kidney and bladder troubles and at times was unable to work. I was advised to try your Texas Wonder and after using one-fourth of one bottle I passed a large gall and I have never suffered since passing it. Your advertisement has recommended it to many others who reported themselves cured. I most heartily recommend it to all sufferers from kidney or bladder disease.

## SAM DEAN,

## Select The Layers.

All hens are good layers, but some are better. It is the better hen that we are after. Poultry Herald says it is necessary to select females that are good layers, and if possible, form a line of good layers, and to them mate a male bird that is known to be the "son" of a good layer. You then have good laying qualities in the blood of both males and females, and ought to have good results in this direction from the stock produced by such a mating.

## WILL SUCCEED ALLEN.

WILLIAM H. HUNT to Be Appointed Civil Governor of the Island of Porto Rico.

The retirement of Gov. Allen of Porto Rico will be succeeded by William H. Hunt, the present secretary of the island. Gov. Allen will retire on September 1, but he will not return to Porto Rico if he can avoid it. He will spend the summer at his home in Massachusetts. Gov. Allen feels that his work in Porto Rico has been accomplished.

A civil government and free trade have been put in operation under his regime, and since he was made the executive head of the island he has done much toward rehabilitating it. He is

now in Washington, D. C., awaiting his appointment.

Lady—"Is your father a steady drinker, little boy?" Little Boy—"No sir! Dad's very undrinky when he's drinking."—Philadelphia Record.

To Eat for Her.—Miss Elsie—"There are so many fast young men nowadays." Miss Young—"If you do seem to have difficulty in catching one,"—Philadelphia Evening Bulletin.

Under George—"Tom Taylor says

that you have grown remarkably pretty." Clara—"So he has begun to take notice, has he? Probably he'll begin to talk to you by—"Boston Transcript.

Balam's ass stopped before the watering trough. Suddenly he began to weep. "What is the water row?" asked Balam, somewhat testily. The mule's eyes were leaking fast. "Alas!" he cried, "you have driven me to drink!"—Princeton Tiger.

At the Apothecary's—Poet—"How much for this prescription?" Apothecary—"Two dollars, please." Poet (soliloquizing as he pays)—"And the publishers tell me that poetry is a drug in the market. Oh that it were!"—Boston Transcript.

Poor Child—"You've got a little brother," said the nurse at breakfast. "He was born last night." "Really?" exclaimed Tommy. "And last night was Sunday. Poor kid!" "Why do you say that?" "Cause his birthday won't do him any good. Sunday's a holiday, anyhow?"—Philadelphia.

When he was 27 years old, Dr. Hunt was elected attorney general of the territory of Montana. He subsequently removed to Helena, and in 1888 was elected a member of the legislature, where he served as chairman of the judiciary committee. He was a member of the constitutional convention in 1884 which framed the constitution of the state when it was admitted to the union, and also held important judiciary positions in Montana.

The Schley court of Inquiry is due to convene at Washington Thursday.

Sunday was the anniversary of the Galveston flood, in which 5000 lives lost.

According to Webster the Polish "CZ" has the sound of "ch," and the assassin's name is something like Chogozek.

Roosevelt is 43 years old, five years younger than Grover Cleveland was when he became President.

Thirteen of the nominees on Sapp's ticket in Louisville have refused to accept, and it seems hard to get a bottom to stay in the ticket.

An assassin is one who kills, or attempts to kill by surprise or secret assault. The victim does not have to die to make it assassination.

A meeting of the Democratic state committee will be held in Frankfort to-day. One object is to consider a proposition to call a primary election to nominate a candidate for United States Senator.

Three Presidents assassinated in 36 years is a sad commentary on our boasted institutions. President Lincoln was shot by Wilkes Booth at Ford's Theater, Washington, April 14, 1865 and died the next day. Booth was killed and four persons hanged as his accomplices, some of whom were perhaps innocent. President Garfield was shot in the Pennsylvania depot, Washington, July 2, 1881, and died Sept. 19, 1881. His assassin was a crank named Jas. J. Guitteau, who was hanged June 30, 1882. President McKinley is the third victim of assassination. If he dies Czolgosz will be electrocuted. Should he recover, the extreme penalty is ten years imprisonment.

Senator Platt, of New York, when he heard of the President's assassination, declared that the assassin should be lynched once without the formality of a trial. To this sentiment we all say "me too." If the Senator cannot have the job attended to in his own state, let him send Czolgosz to some state in the "burned district" for safe keeping.

He Owes His Life to the Forethought of a Companion.

While on a camping trip in Webster County, Mr. S. S. Scott, of Normantown, W. Va., had a severe attack of bloody flux. He says, "I firmly believe that I owe my life to the forethought of one of the company who had taken along a bottle of Chamberlain's Colic, Cholera and Diarrhea Remedy. I took a couple of bottles of this remedy before leaving home. It cannot be obtained when on a hunting, fishing or prospecting trip. Neither can it be obtained while on board the cars or steamers, and at such times and places, it is most likely to be needed." The safety of his life with you. Cured of Chronic Diarrhoea After Thirty Years of Suffering.

"I suffered for thirty years with diarrhoea and thought I was past saving. Then John Chamberlain, of French Camp, Miss., had spent so much time and money and suffered so much that I had given up all hopes of recovery. I was so feeble from the effects of the diarrhoea that I could not stand, labor could not even travel, but by accident I was permitted to find a bottle of Chamberlain's Colic, Cholera and Diarrhea Remedy, and after taking several bottles I am entirely cured of that trouble. I am anxious that it be in reach of all who suffer as I have." For sale by all druggists.

## YOUNG MOTHER'S DEATH.

Mrs. G. M. Champlin Expires Without Warning.

Mrs. Katie Rutherford Champlin, wife of Mr. Green H. Champlin, died very suddenly at her home on Clay street Sunday at noon.

For the first time since the birth of her child about three weeks ago, Mrs. Champlin was preparing to come down stairs to dine with the family. She was in the act of descending the stair steps, and had reached the third step from the top when she called to her husband in the room below that she would have to sit down on the steps. Mr. Champlin sprang up the steps as she was sinking into a sitting position and taking her in his arms carried her below and a doctor was hastily summoned. Nothing could be done to rouse her from what seemed a fainting spell, and she died in a few minutes.

The physicians attribute her death to a clot of blood formed on the heart.

Mrs. Champlin was Miss Katie Rutherford and she was married about two years ago. She was a young woman of great nobility of character, beloved by a wide circle of friends. The funeral services will be held to-day.

## Thousands Have Kidney Trouble and Don't Know it.

Fill a bottle or common glass with your water and let it stand twenty-four hours. A sediment or settling indicates an abundance of kidney trouble. If it stains your linen, it is evidence of kidney trouble. Too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.

What to Do? The knowledge so often expressed that Dr. Klinner's Swamp Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the human system. It has been found to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant condition which compelled go to sleep during the day and sleeplessness during the night. The mild and the extraordinary effect of Swamp Root is soon realized. It stands highest for its wonderful curative power. If you feel ill. If you need a medicine you should have the best. Sold by druggists in 50c. and \$1. sizes. You may have a sample bottle of this wonderful medicine sent you free and a book that tells more about it, both sent absolutely free by mail.

Address Dr. Klinner's "Swamp Root" Co., Elizabethtown, N. Y. When writing mention reading this generous offer in this paper.

## THOMAS BENNETT

In His 88th Year Passes Away Near Clardy.

Clardy, Ky., Sept. 7. Burglars entered J. O. Menser's store here Wednesday night and drilled a hole nearly three inches deep in his safe door, when they broke their bit and gave up the job, leaving the bit in the safe. They broke into S. E. Bennett's blacksmith shop near by, presumably in search of another bit, but found none except those used for a drilling machine, that could not be used with a brace. They carried off a new chisel belonging to Mr. Bennett. Mr. Menser missed nothing from his store except five cans of oysters, a bottle of pepper sauce and some crackers, which the burglars ate at the blacksmith shop within a few steps of the store. They entered the store by way of the rear door and left in the direction of Princeton.

Old Uncle Thomas Bennett died of dropsy at his home near here on the 28th ult., at the age of eighty-seven years, six months and ten days. He was sick only a few days. He was a consistent member of the M. E. church and a good citizen, highly respected by all who knew him. Funeral and interment occurred at the McKnight graveyard on the 29th. He leaves seven grown children and a host of friends to mourn his death.

Mr. J. Menser fell from a wagon load of oats last Tuesday landing on his head, sustaining some very painful injuries, but was able to be about yesterday.

Mr. Wilbur Franklin has bought

the stock of dry goods belonging to the late Jas. Menser of Dawson Springs, and will build a store house on his farm near Macedonia, where he, in connection with Alexander & Parker, of Dawson, will run a large store. The two stores, will be connected by telephone and operated as one system.

CY KLINE.

## For Cholera.

A lady of our acquaintance and a perfectly truthful one, writes us that when one of her chickens shows symptoms of cholera she pours half a teaspoonful of kerosene down its throat, and the result is that in a few hours all symptoms of the disease have disappeared. The same thing has been recommended to us from another source which appears to be reliable and yet we would hesitate to employ the remedy except in extreme cases or stock of but little value. As matter of experiment, however, we look upon it as worth trying.

## BUFFALO BILL.

His Great Show Coming October 4.

Having closed a most successful season at the Pan-American Exposition Saturday Buffalo Bill will bring the same big show to this city that has shown in all the big cities. It includes all of the old features, and many new ones this year make the congress of Rough Riders the greatest show of its kind in the world. Every year Buffalo Bill has a battle scene. This year he represents the capture of Pekin during the late struggle in China by the allied forces.

Boers from the Transvaal, Mounted Police from the Canadian Frontier, and Baden-Powell's Cavalry from South Africa gives the Wild West show a representative of the Boer war.

Col. Cody will direct both performances and every lady may be safe in saying that the only "Buffalo Bill" will be in Hopkinsville on Oct. 4th.

## BEDFELLOWS IN MEXICO.

Traveler Spends an Unpleasant Night in Company with Lizards.

"I had a rather unhappy experience once, myself," said a listener, "but it was at a time when my nerves could not stand a great deal, and the shock was no surprise to me. I was really happy when I found that my eyes had played me no trick and that the things about me were real things. I had journeyed down into Mexico, for the purpose of spending some time. The trip was partly a business trip, and partly for such pleasure as I could get out of an experience in a country that was new to me. I ought to say here that I had never been in a tropical country. My life had been spent in the north, and whatever I knew about many of the forms of life in tropical sections was altogether theoretical. I had merely read about many of the things, but I learned afterwards that there were many things I had never dreamed of even in moments when my mind was inclined to conjure with the horrors of uneven sleep. Well, I found myself in Mexico. I was in the wilds of Mexico, and that, where one could find but few of the comforts known to the more advanced ways of living. I stopped with an old Mexican one night, and he put me in a dump little room off to myself. I slept on the floor, or rather I started to sleep on the floor, and 'twas a dirt floor at that. I rolled up on a mattress made of some light material. I had just closed my eyes when I felt something scramble rapidly over my forehead. It startled me a bit, but I kept cool and still to see if it would happen again.

It happened in less time than it takes to tell it. This thing kept up until the experiment was disorganizing my nerves, and I could stand it no longer. I got up and started out, and I felt the same thing happening to my feet. Partly pane-stricken, I rushed into the room of the old Mexican. "Something in yonder," I said, pointing toward my room. He took in the situation at once, and assured me that it was all right. He struck a light and went to the room with me to assure that there was no danger. When I got back to my room I was paralyzed. Crawling over the walls of the hut and scrapping over the floor, over the mattress on which I had lain, and running here and there, and everywhere, was a perfect army of lizards of all sizes, ages and varieties. I told the Mexican to leave me the light, and that I would occupy the room for the night. And so I did. But I did not sleep, for I did not want the lizards, however harmless and companionable they might be, to convert my face and forehead into a promenade. This wound up my experience in Mexico, and I scampered over the border as soon as possible, and since that time the wilder regions in the tropics have had no fascination for me."—N. O. ## AN AUTOMOBILE ACCIDENT.

Curious, Though Disastrous, Experience in a French Forest

A lady was entering the forest of St. Germain, near Paris, in an automobile recently when the machinery became out of order. The passengers brought the car to a standstill in order to overhaul the engines, when almost immediately a violent explosion occurred and the car was enveloped in flames. The passengers had a narrow escape. The liquid fuel in the reservoir of the car overflowed and became ignited, and it was feared that the burning stream of oil would run among the bushes fringing the road, setting them alight, in which event the forest would have been involved and widespread damage caused. The forest fire, however, was averted by the falling of a few trees and the cutting away of the undergrowth in the vicinity of the burning vehicle. The motor car burned fiercely for about an hour, leaving only a mass of tangled steel and ironwork. The value of the automobile was \$5,000.—Scientific American.

## One of Those Questions.

"Help! Help!" gurgled the drowning man, as he was about to sink for the last time.

"What's the matter?" yelled the loungers on the wharf. "It ain't deep. Can't you walk out?"

"Of course!" gasped the other, sarcastically; "but I'm afraid I'll get my shoes wet."

Then he sank.—London Answers

## Can You Afford To?

Can you afford to experiment with unknown and untried brands of Fertilizers, when you can get right here what you know to be good? Soils are of great variety, what suits your farm may not be adapted to your neighbor's. Experimenting may mean the loss of a crop, as well as the amount invested in Fertilizers. Every farmer knows Armour and Homestead, Eagle and Ox Brand Fertilizers. They are no experiment. **Its Time to Put in Your Order Now** if you want it to come forward with shipments for Early Fall seeding.

HIS CHEESE BOXES.  
How a Hot Spell Did One Man a Good Turn.

"Hot weather always brings its fair quota of good and bad results, preserving the doctrine of averages," said a thoughtful citizen, according to the New Orleans Times-Democrat. "I used to have a friend who was fond of saying that things always manage to even up, and, as illustrative of this saying, he would invariably add that rich folks have ice in the summer time and poor folks have it in the winter. So I have found out that these extreme hot spells do good and bad, breaking one man and breaking another. I recall the case of a fellow out in Kansas who had established a small lumber business, and the timber which he had sawed into planks was thoroughly green and full of sap. The planks were very thin and the material was extraordinarily supple. He had cut them very short, too, so as a matter of convenience in handling, so that when bent around so the ends would lap, they would be about the size of a bushel measure or a cheese box. It was a small place, and the fellow only had a few hundred dollars invested, but this was a big thing to him, for it was his mite. While he had his boards spread out along hot dry spell swooped down on Kansas. The crops were ruined and a wall of distress went up from many sections. Vegetation of every kind was scorched until it was brown and crisp. The fellow had not paid much attention to his lumber piles during the hot season. He thought the drought was doing him a good turn. So it was in a way. His lumber dried out. But it dried too rapidly. It warped, curling up until the ends almost met, and his planks looked like so many cheese boxes. Every little breeze would roll them around in the lumber yard, and he became uneasy lest a gale come up and roll them away, and—." But somebody in the crowd said something about veracity, and the conversation was brought to a close.

## LEARNING HOW TO PLAY.

Annual Recreation Seasons Becoming More Popular with Americans.

Any careful observer must have noted how much more popular recreation has of late become among the American people, says the Philadelphia Press. The Saturday half holiday is more general and vacations are longer and more indulged in by all classes. And in addition to these, excursions and "days off" are more frequent and popular than formerly. Some one "handy at figures" has estimated that 10,000,000 in the United States will take a vacation this summer, and that on average each one will spend ten dollars. This would make a total of \$100,000,000 spent for rest and recreation. It is probable that the figures are too small. Leaving out the rich and leisure class, to whom time and money is no object at least one in each seven of all the people in this country will enjoy a vacation this summer, extending from five to 30 days. This would mean a rest for over 12,000,000 people, and if they spent only \$12 each, about \$150,000,000 will be used in gaining rest and recreation. It is time and money well spent. "No investment made in the whole year brings in larger returns." It is one of the causes which are adding perceptibly to the span of life. The lengthening of this span has become so evident that a revision of the old tables of the expectation of human life has been made necessary.

## PROFESSOR ROWLAND.

Love His Work, But Was Also Fond of Sport.

He lived for his work, but in his earlier days he was passionately fond of riding. Some years after the publication of the paper on the machanical equivalent he was awarded a prize for it by one of the Italian academies; about the same time he won a steeples-chase, riding his own horse; he hardly knew which event gave him the greater pleasure. Another time, passing through England on his way home from the continent, he had three days to spare. One of these was passed at Cambridge discussing electrical measurements, the other two were spent in a hurried visit to Exmoor to get a run with the staghounds. Twenty years ago he was a frequent visitor to England, and attended several of the meetings of the British association; recently his visits were much less frequent. He was not well; some few weeks ago it was known that he had had a serious illness, but the news then was that he was better and on the road to recovery; however, an operation proved necessary, and he never recovered from its effects.—Nature,

## THE MODERN MOSES.

That is the Name Given by Many to Theodore Herzl.

PEN PICTURE OF THE LEADER OF ZIONISM, IN WHOM VISION IS EVER PRESENT THE IMMORTAL IMAGE OF ISRAEL AS A NATION.

A year ago, while I was drinking afternoon tea in a London drawing room, there entered a tall, thin man, with coal black hair, beard and mustache, restless visionary eyes, and a nervous mouth, twitching with half sad humor. I did not know him, but I intuitively divined the intensity of his personal force, the rich radiance of his character, the passionate idiosyncrasy of his soul, says a writer in the London Star.

At that time Zionism was a mere scrap to me, one of those topics that pass between the social and political highways. But the moment I saw this modern Moses, this practical prophet, Zionism became a vivid reality. For I recognized in him one of those apostles who work miracles by the power of their will and the inspiration of their vision. Herzl could not speak a word of English. After a few incomprehensible drifts away again, leaving me profoundly interested in his romantic genius. He had done nothing, said nothing, but he had been born to lead. Now the world can be himself in a drawing-room. And this man's self was so bizarre, so disturbing, so strange, that I caught myself wondering at its persistence in my mind.

Well, the other day I saw Herzl again in another room of the Hotel Cecil, which was I who drafted in, and the first thing that disengaged itself from the rout of men and women was the old restless visionary gaze that had haunted me before. The Jewish leader was holding a kind of levee, with lyrical interludes in the shape of songs by his Hungarian compa-

nion. ## DECIDED TO TEACH.

Maj. J. O. Ferrell Alters His Determination to Quit School Work.

A week ago Maj. J. O. Ferrell, of Hopkinsville High School, announced that he would not resume school this fall. After considering the requests of several of his friends, Maj. Ferrell has decided to change his plans and teach a few boarders and a small number day pupils. He will therefore begin the school to-day, which will be the 29th year under the present management. In 1873 Maj. Ferrell came to Hopkinsville and opened a literary school. It grew to large proportions and in three years it was necessary to employ two assistants and many of the most successful business men of this city and of other states were Maj. Ferrell's pupils, 25 years ago.

## COUNCIL MEETING.

New Street to be Opened in Third Ward.

At the council meeting Friday night it was voted to extend East 18th street from the railroad to Walnut street. It will be necessary to purchase or condemn the ground, which will be metaled as soon as the street is opened.

Pavements were ordered down on both sides of West Seventh street, west of the bridge.

Water troughs were ordered placed on all streets leading to the country, for the benefit of the country people. They will be placed near the city limits on each road.

It was made an offense punishable by fine to deface the mail boxes on the streets.

A special appropriation of \$250 was made for the colored Public Schools, from the school fund.

## Oil for the Children.

Give them oil—cod-liver oil. It's curious to see the result.

Give it to the peevish, fretful child, and he laughs. Give it to the pale, anaemic child, and his face becomes rosy and full of health. Take a flat-headed child, or a child that has stopped growing, give him the oil, and he will grow big and strong like the rest.

This is not a new scheme. It has been done for years. Of course you must use the right oil. Scott's Emulsion is the one.

Scott's Emulsion neither looks nor tastes like oil because we are so careful in making it pleasant to take.

## TWO SMALL FIRES.

Damage in Neither Case Amounted to Much.

A small coal house on South Liberty street caught on fire Saturday morning, but the flames were soon extinguished with a few buckets of water.

A lamp was accidentally upset in the kitchen at Mr. John A. Steele's residence late Friday afternoon, setting the floor on fire. An alarm was turned in, but the flames were put out in a few minutes by smothering them with blankets. Mr. Steele threw the lamp from the window and in doing so got his hands quite badly scorched.

Ethridge Trial to Come up—Henry

Menser Elected City Marshal

—Other Items.

(CADIZ RECORD.)

The sale of the Hillman lands in Trigg and Lyon counties to S. N. Leonard &c., was confirmed by Judge Cook. There are about 6000 acres of the land.

Mr. Stacker will complete the final survey of the railroad this week. The construction corps are now at work in the Wormelsdorf field, and the grader is in the Robinson field just this side. The dirt work on the railroad will be completed by the first of October.

Besides the ties that are being furnished here, the company has recently made the purchase of eight thousand from the L. & N. Railroad.

The trial of Wm. M. Ethridge, who is now in jail under indictment for shooting Joe Ballard in Sinking Fork last March, is set for next Monday. We understand that both sides are anxious for a trial, but considering the large number of witnesses and the busy season with farmers, there may be some trouble in securing the attendance of witnesses. Sims and Kelly & Kelly represent the defendant, and Hon. Jas. B. Garrett will assist Col. Howell and County Attorney Smith in the prosecution.

Our own Bill Howell, who looks as much like a Congressman as Joe Blackburn, looks like a Senator, made his appearance promptly the first day of Circuit Court, and the few evildoers and violators of the law to be found in Trigg county are beginning to shake in their boots. We listened to a fine speech from him Tuesday evening. He is one of the most accomplished prosecutors in the State and we regret to give him up, but from what we are enabled to learn the people of the Second Congressional District have other duties they desire he shall perform, and we reluctantly surrender our claim.

The regular meeting of the City Council will be held next Saturday night. A successor to Sheriff R. Lawrence, who resigned a month ago as a member of the Council, will be selected, and a successor to City Marshal Ed S. Summer, who was resign two weeks ago, will also be selected. The members of the Council have decided on Mr. Henry Menser, who lives about seven miles from Cadiz on the Princeton road, as Mr. Summer's successor, and he will be elected to the position Saturday night. The salary will remain at \$300 per month, with fees and five per cent for collecting the taxes. Mr. Menser will move his family to Cadiz this week.

Mr. Menser was City Marshal of Dawson for seven years, and retired voluntarily last year to remove to Trigg county. He is said to be a fine officer.

## LIPKINS VS. LIPKINS

Style of Divorce Suit to Be Tried Soon.

Carrie Lipkins has filed suit for divorce from Harrison Lipkins. The petition recites that they were married in this county Sept. 28, 1898, and lived together as man and wife until Aug. 31, 1901, on which day, plaintiff alleges, she was forced to leave defendant on account of his cruel and inhuman treatment of her. She further alleges that defendant whipped her several times with a stick and told her to leave his home and never return.
